I. Sokolič (Croatia)
C. Shashkin (Russia)
V. Paramonov (Russia)
W. Van Impe (Belgium)
Yasser El-Mossallamy (Egypt)

Conference Topics

- Soil-Structure Interaction
- Underground Structures and Retaining Walls
- Site Investigation as source of input parameters for Soil-Structure Interaction
- Interaction between Structures and Frozen Soils

Invited Lectures

First Tschebotarioff Lecture

M. Jamiolkowski (The Torino Polytechnic, Italy)

Feasibility study of deep vertical shafts to stabilize Zelazny Most tailings dam

J.-L. Briaud (A&M University, USA)

Dynamic Soil Structure Interaction During Truck Impact on Piles

W. Van Impe

Soil-pile group interaction in the case of large petroleum tanks in heterogeneous soft soil

Colin C. F. Leung (Singapore)

Effects of deep excavations on adjacent foundations

J. Gniel and C. Haberfield (Golder, Australia)

Design and performance of a tied-wall embankment supported on concrete column ground improvement

The Conference will feature 4 interactive workshops

1. *The path to Eurocode 7*. Moderated by R. Franc (France)
2. *Numerical methods in Soil-Structure Interaction*. Moderated by C. Shashkin (Russia)
3. *Interaction between geologists and geotechnical engineers in complex geotechnical projects*. Moderated by A. Shashkin and R. Dashko (Russia)
4. *Calculations of Structures on Frozen Soils*. Moderated by I.I. Sakharov, V.N. Paramonov (Russia)

Paper Submission

Submitted papers must conform to the conference [paper template](#) and shall be made available to the Organizing Committee no later than 21 April 2014. The [template](#) can be downloaded from TC 207 site (please visit tc207ssi.org).

Papers may be submitted in either English or Russian. All papers will be reviewed by the members of the Scientific Committee. Kindly send your papers to georec.spb@gmail.com and lisyuk@gmail.com
